

DEPLOYMENT TO [REDACTED] 25X1C

25X1C

1. In the following examples of staging timetables a turn-round time of three hours has been allowed for all a/c. Retrieval crews are in position a minimum of 10 hours before the scheduled arrival of a U-2 and launch crews do not depart until a minimum of 10 hours after a launch. 'D' is defined as the day and hour of departure of the first a/c from Edwards. It is usual to give the Unit seventy-two hours warning of an impending deployment; in an emergency this figure could be reduced to about eighteen hours, this is the time required to position transport a/c at Edwards AFB.
